

Hey Hey We're

THE MONKEEMOBILE

Tribute Car For 45th Anniversary Tour

A TV series showcased the complete build for the 45th Anniversary Tour replica car, built to the specifications for the '60s Monkees television show. Dean Jeffries, the Monkeemobile's original designer and fabricator, provides direction and commentary for the car's refurbishment. Unlike some other "copies" that lack many of the details of the original, the 1967 Pontiac GTO 4-speed "donor car", is professionally transformed to a concours grade show car with exacting detail, from the GM paint code "R", to the gold flake 6-7-1 blower and correct Cragar wheels. In keeping to the most original detail, this authorized rebuild is extensively customized with dual trumpet exhaust, parachute pack, custom upholstery and body work, chromed radiator cover/cap, belt cover, and gas filler cap. This replica is also autographed on the dashboard by band members Davy Jones, Micky Dolenz and Peter Tork. Considered the nicest official rebuild of the Monkee's custom GTO in existence. The 45th Anniversary Tour tribute car now resides in Ormond Beach, Florida.
